“I use to think, but now I think” defining the Thinking Routine/Essential Questions:

EQ 1: How can artists use representational works of art or design how visual and material culture defines, shapes, enhances, inhibits, and/or empowers people’s lives?

Now Question: At the beginning of the project, students often feel like it was impossible to learn to draw realistically, but how do you feel now?

(VA.Cr .2.3.IIIa)

EQ 2: How can students individually or collaboratively formulate new creative problems based on students’ existing artwork? (VA:Cr1.1.IIa)

Now Question: Were you able to see areas of your work that needed improvement and able to change them with the drawing tools?

Drawing Challenge:

What is something that you have always wanted to draw but did not feel equipped to do?

- Gather sources of the subject or gather objects to study from life.
- Create an artwork incorporating different drawing tools that we discussed in class.
